Dear Sir or Madam,

Victron sponsor in Paris-Dakar 2011

Argentina - Chile: The Dakar Rally 2011 leads through the Latin American countries Argentina and Chile from January 1st to January 16th, 2011. Over 400 vehicles started in Buenos Aires, including cars, motorbikes, quadbikes and

trucks. Victron Energy is sponsor of a Dutch truck-team: the Veka Racing Team.

Daily updates about the Dakar Rally will be broadcasted on Eurosport and local TV channels. News, photos and rankings are also available on the official website of the Dakar Rally (<http://www.dakar.com/>). The progress of the Veka MAN Racing Team is also available via twitter, follow [@Victron_Energy](#)

New design panels: GX

For both the Blue Power Panel and the Digital Multi Control Panel we developed a new design: GX. The body of the GX panels is made of plastic, which gives a modern look to the panels. An extra advantage of the GX panels is the mounting frame that allows the user to mount the panel from either front or back side. Due to the frame the mounting holes will no longer be in sight.

Festival on Solar Energy

A Festival running completely on Solar Energy, that was the main purpose of the Belgian organisation 'Solar zonder Grenzen', which organised the festival Fiesta Solar. Especially for this green event a mobile energy-supplier was developed: the REN-Mobile (Renewable ENergy Mobile). The REN-

Mobile is a truck equipped with a solar system. At the center of the system three Quattro's from Victron Energy are installed.
